

ISO 9001 CERTIFIED

CONTAINERIZED SHOWER UNIT

Containerized for durability, each unit provides six individual shower stalls, lavatory sinks, hot and cold water, climate control, and interior lighting.

Designed from the ground up with field conditions in mind, these units are plug-and-play and can easily adapt to existing municipal water and sewer systems. In areas without infrastructure, tanks can be provided for both fresh water and gray water storage.

Units can be operated independently or combined with additional shower units to support larger events. They can be positioned on the ground or left on the chassis for added flexibility. Containerized Shower Units (CSUs) are ideal for military exercises, special events, or disaster relief operations.

KEY FEATURES

CONTAINERIZED SHOWER UNIT

- Size:** 8'W x 8'6"H x 20'D
- Footprint:** 8' x 20'
- Weight:** 8,000 lbs
