

ISO 9001 CERTIFIED

BICON TOILET UNIT

Designed for field operations, our Bicon Toilet Units (BTUs) provide basic amenities inside a rugged 10' ISO container. Each unit contains facilities for both men and women and includes interior lighting, flushing toilets, sinks, ventilation, and privacy walls.

Units can be operated independently or combined with additional restroom units to support larger events. They can be positioned on the ground or left on the chassis for added flexibility. BTUs are ideal for military exercises, special events, or disaster relief operations.
