

COLLAPSIBLE MODULAR UNIT

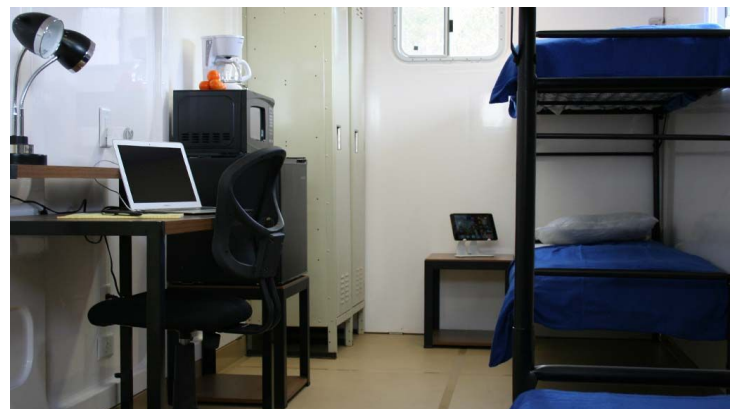

Our engineered Collapsible Modular Units (CMUs) are ideal solutions for expedient temporary facility solutions for housing, operations centers, workspace, or business continuity needs.

CMUs are modeled after the 8' x 20' ISO Shipping Container. CMUs can be set up by three persons in one hour, collapse to 17" high, and stack for cost effective shipping and storage.

KEY FEATURES

- **Composed of Fiberglass**
- **Collapses into itself for shipping and/or storage.**
