

BICON LATRINE/SHOWER AND KITCHEN UNIT

Designed for mobility and locations with limited space, our Bicon Latrine/Shower and Kitchen Unit combines all three of these facilities into one unit. The latrine/shower portion contains a toilet, sink, and shower while the kitchen segment features a 4-burner range, 2-bay sink, refrigerator, microwave, ample counter space, energy-saving, on demand water heater, and electronic climate control.

The Bicon Latrine/Shower and Kitchen Unit can be integrated with the Deployed Resources Micro Camp.
